8. Insurance. Tenant agrees to obtain and keep in full force and effect the following insurance policies:
 - a. General Liability. General liability insurance with a company licensed to do business in Tennessee with a minimum limit of not less than \$1,000,000.00 for bodily injury, personal injury and property damage. In the event said general liability insurance contains general aggregate limit, it shall be no less than two times the per occurrence limit. The foregoing general liability insurance policy shall not contain exclusions from coverage relating to participants in any event held by Tenant on the Premises, legal liability activities or issues related to occupancy by Tenant of the Premises.
 - b. Abuse and Molestation. Tenant shall maintain a policy of insurance covering physical abuse and sexual molestation with coverage of no less than \$1,000,000.00 combined single limits, per occurrence and aggregate. Said coverage shall be maintained for the term of the Agreement, any optional renewals and for a period of one year following the termination or expiration of the Agreement. Said coverage must contain no sub-limits and apply to all Tenant employees, agents, contractors, and volunteers.
 - c. Additional Insured. Tenant shall furnish the Landlord with a Certificate of Insurance naming the Landlord as an Additional Insured for general liability and abuse and molestation coverage and certifying that insurance heretofore required is in force and will remain in full force and effect during the term of this Agreement. 9. Law Observance. Tenant agrees that every person connected with the Tenant's occupancy and use of the Premises covered by this Agreement shall abide by, conform to and comply with all the laws of the United States of America, State of Tennessee, ordinances of the City of Chattanooga and Hamilton County, Tennessee, and the rules and regulations of the Landlord for management of the Premises. Additionally, Tenant agrees to abide by all Executive Orders issued by both the Governor of the State of Tennessee and the Mayor of the City of Chattanooga related to COVID-19. 12. Alterations and Defacement.

12.1 Alterations. The Association is permitted to make certain improvements, additions, and fixtures to the premises subject to the following conditions:

- (a) All improvements, additions, appliances, fixtures, and all other property whatsoever kind or nature that is affixed to the property or becomes attached to and a part of the land, shall belong to the Landlord.
- (b) The Landlord may, at its discretion, request the Tenant remove any alterations at the expiration of this Agreement.
- (c) If Tenant desires to make improvements to the Premises, it shall be required to submit a detailed description of the improvements to be made to Landlord including a timeline of when the work to perform said improvements shall occur (the "Tenant's Plan"). The Tenant's Plan shall be subject to Landlord's written approval. Landlord's approval of Tenant's Plan shall in no event, unless expressly set forth in such approval, be deemed to create any obligations on the part of the Landlord to do any work or make the improvements or to authorize Tenant to make any further additions, improvements, or alterations to the Premises.
- (d) In the event Landlord approves Tenant's Plan, and the cost of executing said plan is estimated to cost ten thousand dollars (\$10,000.00) or greater, the Parties shall execute an amendment to this Agreement setting forth the obligations of the Tenant with respect to the construction of improvements in accordance with Tenant's Plan, which shall be attached as an exhibit to the Amendment.
- (e) All work to perform certain alterations should occur during the off season as designated by the Landlord to minimize disruptions to use of the Premises.

12.2 Defacement. Absent written approval by Landlord of Tenant's plan to undertake certain alterations, Tenant shall not injure, mar, or deface the Premises and shall not cause or permit anything to be done whereby the Premises shall be in any manner injured, marred or defaced. Nor shall the Tenant drive or permit to be driven, any nails, hooks, tacks, screws or bolts, in any part of the Premises. Nor shall Tenant make or allow to be made any alteration of any kind therein or thereon, nor tape any adhesive tape or stickers at any location therein. If the Premises, during the Term of this Agreement, shall be damaged by the act, default or negligence of the Tenant, or by the Tenant's agents, employees or any persons admitted to the Premises by Tenant, Tenant shall pay to Landlord, upon demand, such sum as has been documented and shall be necessary to restore the Premises to its original condition, ordinary use and wear accepted.

CITY OF CHATTANOOGA STANDARD PREMISES USE AGREEMENT

14. Pedestrian Bridges. Tenant agrees that Landlord shall not be responsible for any use of the pedestrian bridges located on the Premises by Tenant, its agents, employees, representatives, or invitees (“Tenant Permitted Users”). Tenant agrees that necessary repairs are required to be made and the pedestrian bridges have not been determined to be safe for use. Any use by Tenant Permitted Users until necessary repairs are made shall be at the risk of Tenant and/or Tenant Permitted Users. Landlord assumes no responsibility for any claims resulting from Tenant Permitted Users’ use of the pedestrian bridges, and Landlord is hereby expressly relieved and discharged from any and all liability for any loss, injury, or damage to persons or property that may be sustained by reason of use of the pedestrian bridges.

 - c. Notwithstanding the clauses above, if the breach by Tenant or any of its officers, directors, employees or agents of such other term, covenant or condition, is such that it threatens the health, welfare or safety of any person or property, Landlord may, in its sole discretion, require that such breach be cured in less than five (5) business days or immediately.
16. Landlord Default. Landlord shall be in default under this Agreement if Landlord fails to perform or fulfill any term, covenant, or condition contained in this Agreement; and Landlord fails to commence a cure thereof within five (5) business days after Landlord has been served with written notice of such default. Nothing contained herein shall be construed as excusing either party from diligently commencing or pursuing a cure within a lesser time if reasonably possible.
17. Termination by Reason of Default. Upon default pursuant to paragraph 15, the non-breaching party may, at its option, upon written notice or demand upon the other party, cancel and terminate this Agreement and obligations of the Parties with respect thereto.
18. Injunctive Relief. In addition to any other remedy available at law, equity, or otherwise, Landlord shall have the right to seek to enjoin any breach and to obtain specific performance of this Agreement by Tenant upon meeting its burden of proof of such breach or threatened breach, as required by applicable statute or rule of law.

20. Safety and Security. 30. Entire Agreement. Nothing herein contained shall make, or be construed to make, Landlord or Tenant a partner of one another, nor shall this Agreement be construed to create a partnership or joint venture between any of the Parties hereto or referred to herein. BALL DIAMOND FIELD MAINTENANCE GUIDELINES

- **IF IT'S TOO WET TO PLAY, DON'T PLAY!** Using the ballfield when it's too wet ruins the grade of the infield, makes "bad hop" holes and ankle twisters and compacts the soil in the turf areas, and most importantly - leads to unsafe playing conditions. SEE ATTACHED WATER REMOVAL TECHNIQUES AND TIPS
 - **NEVER, EVER USE KITTY LITTER OR WOOD SHAVINGS/DUST** to dry up wet spots. Calcined or vitrified clay conditioner can be used in small amounts, marketed under the brand names Turface, Pro's Choice, Diamond Pro, Rapld Dry, Profile, these are the most common products used to assist with wet infield conditions. These products should be used judiciously for two reasons: they are an expense to the program and they change the properties of the infield mix when used abundantly. **If it takes more than 3 bags to get a field ready, it is too wet!** If in doubt, reschedule the game. It is easier to make up a 1 1/2 hour game, than its is to spending days repairing the field.
 - **NEVER, SWEEP INFIELD MATERIAL INTO THE GRASS!** If you find a "birdbath" or puddle after a rain, please take care not to sweep or remove infield material. This will only worsen the problem the next rain. This also will kill and choke off the grass and create a "lip" where the infield mix meets the grass.

- **RAKE LOOSE INFIELD MIX BACK INTO BATTER'S BOX HOLES, BASE SLIDE AREAS, PITCHER'S RUBBER PUSH-OFF AND LANDING AREA AND DUG OUT INFIELD AREAS!** If a hole or depression is present, what came out of it is usually there right next to the hole — Rake it back in! Yes, this takes some effort and you may break a sweat. If you rake a little at a time and tamp it in one small layer at a time (1/2" or less) it will pack in just fine. If you try to do it all at once, chances are you will never get it packed tight enough. If we're in a long dry spell it may be necessary to add a little water, mix it in a little at a time. You'll find this will help it pack a little firmer. Remember, if your players are "digging in" at home plate they have to run out of that same hole and also run over it or slide over it to reach home.

- **NEVER DRAG UP TO THE EDGE OF THE GRASS!** If you drag the field, please pull the drag up to about 6"-12" before the grass edge. If you drag right up to and into the grass edges, you create an unsafe "lip". See attached infield grooming techniques.

- **NEVER DRAG THE DRAG OFF THE INFIELD AND INTO THE GRASS!** This will kill and choke off the grass and create a "lip" in the grass. Pick it up and lift it off the infield; rake the remnants back out into the infield areas. See attached infield grooming techniques.

- **DO NOT USE LIME TO LINE THE OUTFIELD FOUL LINES!** This creates a buildup causing dead grass and unsafe "lip" conditions. If you require lines, please use white paint.
- **WHERE PRESENT, PLEASE REMOVE BASES CAREFULLY (THIS INCLUDES BASE PLATES ON THE BREAKAWAY BASES) AND ALWAYS REPLACE BASE PLUGS.** Base plugs have been a continuous problem of being misplaced, stolen, forgotten etc., and when absent cause potential safety concerns. Please do not forget this important step. Remember that these are public fields and we need to keep them safe for all Chattanooga Residents.
- **NEVER, UNDER ANY CIRCUMSTANCES DRIVE YOUR PERSONAL VEHICLE (CAR/TRUCK/SUV/LAWN MOWER) OFF PARKING LOTS ON TO ANY TOWNSHIP GRASS AREAS.** This causes soil compaction and creates "ruts" on the fields when conditions are wet. Soil compaction reduces the circulation of airflow through the soil, which is needed for healthy turf growth.
- **NEVER USE HERBICIDES OF ANY KIND ON ANY FIELD WITHOUT WRITTEN APPROVAL BY PARKS DIVISION!** Only properly licensed Chattanooga Parks personnel or contracted service providers may make these applications due to Liability and Department of Environmental Protection regulations. If there is a turf problem, contact your president and he/she will make the contact to the Parks Division notifying of the problem.
- **PLEASE PICK UP ALL LITTER IN THE BALLFIELD/DUGOUT AREAS BEFORE YOU LEAVE.** All coaches should police the area for trash and place in designated trash receptacles after each and every game/practice. All fields should have trash and recycling receptacles near the player benches. If not, please notify the Parks Division. Youth Associations are responsible for all litter pickup. Please remove overflowing trash to the dumpster. Failure to follow this simple park rule could result in loss of field privileges.
- **DO NOT HIT BALLS INTO THE FIELD FENCING FOR PRACTICE OR SOFT-TOSS!** This activity damages the chain link mesh causing it to stretch and create a concave appearance. This causes the fence to curl up from the bottom allowing balls to pass underneath. Use a "Soft-Toss" net for this activity.
- **FOLLOWING THESE SIMPLE GUIDELINES WILL ONLY IMPROVE FIELD CONDITIONS MAKING THEM SAFE AND ENJOYABLE FOR PLAYERS, PARENTS AND RESIDENTS.** Involving players and parents in these procedures will also help them gain respect and consideration for the next team or Chattanooga resident who plays on the fields.

WATER REMOVAL TECHNIQUES FOR SKINNED INFIELDS

The most important mistake to avoid is the removal or movement of infield mix. A level field will drain better and have fewer puddles. Low spots or depressions catch and hold water **EVERY TIME!** If there's standing water on 5% of the infield, it's **TOO WET** for play! If your shoe leaves an impression like these, it's **TOO WET** for play!

Use a pump to remove puddles.

1. Dig a hole and place the field mix out of your way.
2. Let the water drain into the low spot you've created.
3. Use the pump to move the water into a bucket.
4. Empty the bucket outside of the playing field into a drain.
5. Replace the field mix into the hole and level with a rake.

For small or shallow puddles, use a water absorbent pillow.

1. Allow the absorbent material to soak up the water.
2. Have a bucket nearby to wring out the pillow or sponge.
3. Empty the bucket of water off the field of play into a drain.

After the standing water has been removed, use a rake or nail drag to loosen the infield mix so it will dry more quickly. Allow time to air dry.

DO NOT Use These Methods on Wet Fields!

DO NOT use brooms to disperse puddles.

DO NOT sweep a puddle into the grass.

DO NOT remove muddy infield mix from the field.

All of these unfortunate techniques move infield material and leave a depression or low spot that will hold water every time it rains.

Steps for Applying a Drying Agent

1. First remove as much water as possible using the pump or pillow method.
2. Use a spreader, shovel, or hand to evenly apply a thin layer of the drying agent.
3. The material may be lightly incorporated using a rake or left on top of the infield mix.

INFIELD GROOMING TECHNIQUES

1. Remove the bases and plug the base anchor sleeve before beginning any operations.
2. **Vary the dragging pattern every time the field is groomed.**
 - a. <http://www.diamondpro.com/Content/downloads/dimensions-softball-drag-patterns.pdf>
 - b. <http://www.diamondpro.com/Content/downloads/dimensions-baseball-drag-patterns.pdf>
3. Scarify the field with a nail drag or needle tines.
4. Finish groom the field with a drag mat or broom. Go slowly!
5. When finished dragging, stop 5 to 6 feet before the edge of the skin and lift the drag. Shake any excess field mix off before exiting the field.
6. Exit the field in a different location each time to prevent build-up of infield mix in one location.
7. Hand rake out the pile left from the field drag.
8. Hand rake: base paths end-to-end, home plate, and the back radius of the infield.

DO NOT pull the nail drag or mat into the grass for any reason.

DO NOT take a nail drag or mat within 24" of the grass edge. Only hand rake edges to prevent lips from forming.

DO NOT take a nail drag over home plate.

DO NOT drive the nail drag or mat down base paths or around home plate on baseball diamonds with a grass infield.

Skinned Infield Leveling

Baseball and Softball fields are designed with a specific slope to drain water from their surface. Underground drain pipes are virtually useless and rarely installed on ball fields. Keeping the infield slope correct will prevent puddling and therefore field closures. Players sliding, mechanical field groomers, and other factors contribute to un-level skinned infields. **A diligent approach to correcting high or low spots is the most important task of a field manager.**

For small areas, use a leveling rake.

1. Pull the material from a high spot and deposit it in a low area.
2. If the infield mix is dry, wet the leveled area and compact it with a tamper or the grooming machine tires. Otherwise, it will not stay in place.

For medium sized areas, use the leveling attachment of the grooming tool.

1. Remove the bases and plug the base anchor sleeve.
2. Loosen the field material with a nail drag or needle tines.
3. Make sure the leveler is NOT in the float position.

4. Make wide sweeping turns in several directions over the area that needs to be leveled.
5. If the infield mix is dry, water the area and compact it with the tires of the grooming machine. Otherwise, it will not stay in place.

For large areas or storm washouts, a box blade attachment works best. This should be coordinated with the Parks Division or outside contractor.

CLAY REPAIRS

Clay surfaces provide very solid, firm footing and better wear characteristics than regular infield mix for high wear areas like the pitching mound and batter's box. Making a clay repair is similar to making a repair with regular infield mix. The biggest difference with clay is that it must **NOT** be contaminated with any regular infield mix. Pitching mounds and batter's boxes should be repaired every time they are used.

Techniques for Clay Repairs

1. Dig out and discard all loose material including infield mix, clay chunks, and field conditioners in and around the area to be repaired.
2. Sweep the area free of all minor bits of loose debris and place to the side.
3. Wet the existing clay with a flower watering can, hand held sprayer, or hose nozzle with a fine spray pattern. Add new clay and compact in 2" layers. Working with clay can be tricky so follow these pointers:
 - a. The new clay must have enough moisture content to stick to the underlying clay base that has been moistened. Otherwise, the new clay will pop out of place and create a hazard. The water is the glue!
 - b. If the clay is too sticky, wrap the tamper plate in a garbage bag to alleviate the problem.
 - c. Shredded, bagged clay is very easy to work with and store. It is excellent for small daily repairs.
 - d. Unfired clay bricks are great for large scale renovations and can be purchased by the pallet. Long term storage is not practical for bricks.
4. Add approximately 1/2" of new field conditioner over the repaired clay area.

GRASS EDGE/LIP MAINTENANCE

Regular maintenance where the skinned infield meets the grass edge will prevent the formation of a lip. After wet playing conditions, the most common player injury occurs from bad ball bounces. Lips are a major contributor to this type of player injury. Lips at the grass edge are also the primary barrier to water exiting the skinned part of the field. Water trapped on the skin will force cancellations and field closures.

Techniques for Maintaining the Grass-to-Skin Edge

- A manual or motorized edger can be used as frequently as preferred to keep edges looking crisp. Monthly edging is recommended.
- Neatly rake all grass clippings out of the infield mix when edging is complete.
- Sod should be purchased and installed if edges are significantly deteriorated.
- Sod installation should only be undertaken in the early spring or fall for tall fescue or late spring/summer for bermudagrass
- Sod will usually require hand watering for the first year.
- The Parks Division or an outside contractor should be contacted if sod installation is desired.

Weekly Maintenance to Prevent Lips

- Use a backpack blower or power broom to push displaced material back into the skinned infield. This method works best when the infield mix is dry.
- Use a spring-tine leaf rake or broom and move the material back into the skinned infield. Use a leveling rake to distribute the material when edge maintenance is complete.
- Use a hose with a jet nozzle to wash the infield mix back to the skinned infield. Note that this method should only be performed when ample time is available for the skin to dry.

I fully understand and appreciate both the known and potential dangers of the Minor participating in and myself attending Association events and acknowledge that both participants and attendees of such events may, despite Association efforts to mitigate such dangers, result in exposure to COVID-19, which could result in quarantine requirements, serious illness, hospitalization, disability and/or death. I voluntarily assume all such dangers and risks and accept sole responsibility for any illness, loss or Liability that may result from the Minor participating in or myself attending any and all Association events.
