To: Mayor Andy Berke
City Council Members

Subject: Post-Audit Review of Citywide Employee Training Program (Report #15-02)

Dear Mayor Berke and City Council Members:

Attached is a summary report on the status of audit recommendations in our 2015 Employee Training Program report. The purpose of this report is to confirm whether, and to what degree, management has implemented the recommendations made in the original audit.

The original audit concluded:

1. City employees may not always receive the necessary training they need to perform their jobs efficiently and effectively;
2. A Learning Management System would centralize employee records, provide training materials and distribute policies as well as enable monitoring of employee's compliance.

The audit had 4 recommendations to improve efficiency and effectiveness of citywide employee training. At the time of this Post-Audit Review, two recommendations were not implemented, and two were partially implemented. Recommendations partially implemented and not implemented are herein reported to the Audit Committee for follow-up, as appropriate.

This Post-Audit Review consisted principally of inquiries of City personnel and examinations of various supporting documentation. It was substantially less in scope than an audit in accordance with generally accepted government auditing standards. The evidence obtained provided a reasonable basis for our conclusions; however, had an audit been performed, other matters might have come to our attention that would have been reported to you and our conclusions may have been modified.

Sincerely,

Stan Sewell, CPA, CGFM, CFE
City Auditor

RECOMMENDATIONS NOT IMPLEMENTED (2)

Recommendation	Actions Taken
1 We recommended Human Resources develop a policy which requires all acknowledgment receipts, training certificates, certifications, etc. be maintained in the employee's permanent HR file.	City Council approved the <i>Employee Information Guide</i> which was developed and implemented by the Human Resources Department (HR) as of September 2015. The guide states HR may maintain a file of each employee's records as determined by the HR Director. However, there has been no mandate/policy from the HR Director requiring training certificates and acknowledgement receipts to be maintained in the HR file. Successful completion of the Learning Management System (LMS) will eliminate the need for this recommendation.
4 We recommended Human Resources, at least on an annual basis, review employee files (preferably via a Learning Management System) to ensure employees are updated on current compliance requirements.	City Council approved, on March 1, 2016, the purchase of a LMS with Cornerstone OnDemand. HR believes the system will be implemented in the next few months. With the purchase of the new LMS, HR will be able to easily document and track employee training and compliance requirements. However, with the current manual file system HR doesn't verify the status of employee's compliance.

RECOMMENDATION PARTIALLY IMPLEMENTED (2)

Recommendation	Actions Taken
2 We recommended HR (or ensure the various departments) provide training and/or written policies and procedures to employees to ensure they are adequately trained and aware of all relevant compliance issues. The training should be documented with the employee's signature and retained in their centralized personnel file.	HR provided training for the new <i>Employee Information Guide</i> distributed this past fall. We selected a sample of employees who attended the training and verified their signed acknowledgement form was present in HR. However, training conducted by the Departments may not always be documented in an employee's permanent file. If used properly, the new LMS should track all employee training and document receipt of policies.
3 We recommended HR invest in a citywide Learning Management System. At a minimum, the system should be used to provide training materials, distribute all City policies and compliance materials, and monitor employee's training and policy receipts.	As mentioned above, Council has approved the purchase of a LMS and HR is finalizing contract terms now. According to HR, the system should provide appropriate training needed by employees, house all policies and procedures for each job description, as well as track the completion of training and receipt of policies for all employees.

City of Chattanooga Fraud, Waste, and Abuse Hotline

Internal Audit's Fraud, Waste, and Abuse Hotline gives employees and citizens an avenue to report misconduct, waste or misuse of resources in any City facility or department.

Internal Audit contracts with a hotline vendor, The Network, to provide and maintain the reporting system. The third party system allows for anonymous reports. All reports are taken seriously and responded to in a timely manner. Reports to the hotline serve the public interest and assist the Office of Internal Audit in meeting high standards of public accountability.

To make a report, call 1-877-338-4452 or visit our website:
