91Z Miscellaneous Information

350 Browns Ferry Rd

On 01/29/2021 at 10:30 hours, Officer B.Smith (061120) responded to an alleged hit and run accident that occurred at 350 Browns Ferry Rd. The Police arrived on scene and spoke to the complainant Ms. Haleigh Stewart, she said she was traveling south on Browns Ferry Rd. heading towards the interstate, but a large Cement truck who was traveling north in the opposite direction doing 40 mph. heading towards her had turned in front of her causing her to swerve into a ditch to avoid contact, thus causing damage to the front right side of her car. The Police then spoke to the witness Mr. Donald Hicks, he said the cement truck was not moving at all, it had stopped in the middle of the roadway and was preparing to back up into a driveway located on the east side of the roadway, also the complainants vehicle did not go into a ditch, but had stopped in the roadway and no collision was heard or observed. The complainant gave several different versions of what had happened and even the damage located appeared to be old and not consistent with the events and direction of travel. The mother of the complainant said she did not want to file an accident report, which sounded more like a road rage incident than an accident. The driver of the cement truck who was not on scene had told the witness that he seen the complainant on her cell phone and she was not paying attention to the road and had almost hit him. The police observed the alleged ditch which was very deep and steep, no car could have traveled or entered it without rolling over, also the damage observed was on the opposite side away from the truck. No other police action was needed.
