There is no camera footage available of the incident. In addition, Bishop Coleman could not report any internal or external situation that may have led to the vandalism. Also, he reported no social media threats or statements related to the offense.

I then took several pictures of the statue and included them on this report. Visual inspection indicates the hands of the statue were broken off (not cut). There was no observed related evidence in the area.

20-070321 7/15/2020 4:40:00PM 91Z Suspicious Activity 191 Chestnut St

On 07/16/2020, I was notified by the property manager of River Pier Landing of suspicious activity that occurred the day prior. The following information was then learned:

-On 7/15/2020, at 16:40hrs, the suspect vehicle backed into a reserved parking spot just outside the entry gate. The driver, an unknown black male, never exited the vehicle.

-At 17:03hrs the suspect vehicle pulled up to the gate, retrieved a ticket and then pulled into the parking garage. A resident pulled through the gate into the garage just behind the suspect vehicle.

-The two vehicles proceeded up through the parking garage, the suspect vehicle in front of the resident, all the way to the top floor (6th floor). The suspect vehicle was several seconds ahead of the resident. Upon reaching the top floor, it rounded the corner and moved toward the Western terminus of the deck. It then turned around.

-As the suspect came back toward the East side of the deck, the resident had already exited her vehicle and moved toward the secure entryway into the residence. As she made entry, the suspect vehicle pulled into a parking spot two spaces away. The suspect then exited the vehicle. On a normal weekday, the only vehicles that park up at this level are residents of the condo building.

-The suspect then moved toward the resident's vehicle, looking in all directions. On video, it appears the suspect is looking for the resident. The suspect then walks up to the railing at the East side (overlooking Chestnut St) and briefly looks down. He then stares toward the garage elevator in the Southeast corner.

-The suspect never moved toward the secure entryway. Instead he returned to his vehicle, got in, and quickly pulled out. The suspect vehicle is seen exiting the street level gate at 17:11hrs. Because the entry and exit were within 15 minutes of each other, the suspect did not have to pay to exit.

None of the camera images were clear enough to make out details of the vehicle, license plate or the suspect.

No further action at this time.

Cameras showed that as the unknown female was scanning her items she picked up the money order and placed it into one of her bags, finished scanning her items, and then left the scene. Due to the angles of the cameras in the store, officers were unable to gather any identifying traits of the female, as she was wearing a medical face-mask and had no visible tattoos.
