

CONVERTING THE AIRPORT INN: THE CITY'S COMMITMENT TO THE COMMUNITY

WE'RE LISTENING

In response to feedback from the local community, the City commits to pursuing the following list of outcomes related to the conversion of the Airport Inn into permanent supportive housing.

- **Increased Enforcement** — CPD will increase enforcement around the area to further reduce incidents of violence or criminal violations. To assist in increased enforcement, the CPD's most recent cadet class will largely graduate to Charlie Sector which includes patrol of the property located at 7725 Lee Highway.
- **No Sex Offenders** — No one on the sexual offender registry will be eligible to be a resident of the supportive housing units at 7725 Lee Highway.
- **No Serious Violent Felonies** — No one with a serious violent felony conviction will be eligible to be a resident.
- **No Drug Manufacturing Convictions** — No one with a drug manufacturing charge will be eligible to be a resident.
- **Improved Facades** — These supportive housing residences will be indistinguishable from a regular apartment complex.
- **Accountability** — The City will retain the ability to shut down any dysfunctional permanent supportive housing facility, including this one based on proof of violations that continue to occur after notice under the contract or agreement for the operation of this facility. The City will retain this ability through funding mechanisms, code enforcement authority, and deed covenants and usage agreements with any future developers.
- **No-Camping Buffer** — There will be a permanent no-camping buffer on any government-owned property surrounding the supportive housing property owned by the City.
- **On-site Security** — There will be a requirement for the operator of this facility to provide 24/7 professional security services while there are any permanent supportive housing services on-site, as well as cameras that are linked to the City's Real Time Intelligence Center.
- **Transportation Services** — CARTA will provide dial-a-ride services that will pick up at the front door of the facility.
- **Not A Magnet** — There will be no on-site registration for these residences.
- **Community Input** — The City will form a Community Advisory Committee, to include leadership from local churches, including Silverdale Baptist Church, neighborhood residents, and representatives from Silverdale Baptist Academy and other local schools.
